### **A Message from the Radiation Oncology Services Department:**

The charges for your radiation therapy, **consultations, treatments and follow-up visits**, are billed to you in two separate parts.

The first part of the charges will be from Capital Health for services related to the technical portion of your care. Technical charges cover the cost of providing the radiation therapists, registered nurses, dosimetrist, physicists, equipment, supplies and the facility.

The second part of the charges is for the physician's professional services at Capital Health's Radiation Oncology Services Department. The physician's bill includes services for consultation, therapeutic application of radiation treatment, supervision of your care during treatment and follow-up care as required.

Our goal is to minimize for you the level of confusion that these complex bills may cause. The billing staff at Capital Health has been trained to assist you with any billing questions that you may have.

If at any time you have a question regarding your charges, please do not hesitate to contact the department. Listed below are the telephone numbers for the professional and technical billing offices, should you need to contact them directly.

**Physician/Professional Billing Office for  
Capital Health's Radiation Oncology Services Department  
609-815-7810  
Toll-free: 888-251-4453**

**Hospital/Technical Billing Office  
609-394-6023**

Sincerely,

Rona H. Remstein, RN, BSN, BA  
Director, Oncology Services  
Regional Cancer Center
